PROFESSIONAL SUMMARY

Aspiring Software Engineer passionate about building responsive, scalable web applications and backend systems. Strong foundation in software development and modern web technologies focused on efficient, reliable solutions.

EDUCATION

Pillai HOC College of Engineering and Technology, Rasayani | CGPA: 7.62 — 2021 – 2025

S.P. Jain Junior College, Nagothane | HSC (12th) — 68.33% — 2021

K.E.S G.R. Agrawal Vidyamandir, Nagothane | SSC (10th) — 68.40% — 2019

SKILLS

- Languages: JavaScript, TypeScript
- Web Technologies: HTML, CSS, React.js, Node.js, REST APIs
- Frameworks & Libraries: Express.js, Nest.js, Tailwind CSS
- Databases & Tools: SQL, PostgreSQL, MongoDB, Git, GitHub, Docker, Wix Studio

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp – Udemy
- Unlocking the Power of JavaScript – Scaler

EXPERIENCE

PearlThoughts — *India, remote*

Backend Developer Internship — *NOV 2025 – MAR 2026*

- Built backend APIs using TypeScript, Nest.js, and Express.js, working with SQL databases to manage application data, implement API logic, and improve backend functionality by integrating JWT and OAuth authentication.
- Worked with Wix Studio to build responsive websites, used Postman and Hoppscotch for API testing, and Git/GitHub for code management and collaboration during development
- Mentored new interns, conducted daily meetings to track performance and task progress, reviewed their submissions, suggested improvements, and guided them in resolving issues.

Oasis Infobyte — *India, remote*

Web Development and Designing Internship — *Sep 2025* –Oct 2025

- Built web-based applications and a personal portfolio website using JavaScript, HTML, and CSS during the internship, strengthening practical development skills and gaining hands-on experience through project work.

PROJECTS

URL shortener

- Built a URL shortener, REST API Design using Node.js, Express.js, and PostgreSQL with Drizzle ORM, implemented JWT authentication, bcrypt password hashing, Zod validation, custom short codes, URL redirection, middleware-based auth, and comprehensive error handling for secure and scalable functionality.
- build a responsive web interface using React, Vite, and Tailwind CSS featuring user login/signup, URL shortening form, dashboard to view and manage shortened links, copy-to-clipboard functionality, and backend API integration.

Personal Portfolio Website

- Built a personal portfolio as a responsive, single-page website using React.js and Tailwind CSS.
- Designed a simple, clean Ui with dedicated sections for a professional intro, a list of technical skills.
- Included links to social profiles for easy networking and ensured a smooth experience for visitors on any device.

Books Store

- Developed a full-stack library management application using React, Express.js, PostgreSQL, and Drizzle ORM with REST APIs and complete CRUD operations for managing books and authors.
- Implemented responsive UI features including theme toggle and form validation, with structured data handling and proper error management integrated with the backend database.
